AIRWASHER
The Original

VENTA AIRWASHER TECHNOLOGY IS UNIQUE.

The Venta Airwasher is the first appliance for homes and offices using the principle of air washing **without filter pads**. The Venta Airwasher works **hygienically** and is **easy to clean**. There are no filter pads to dispose of when dirty. The appliances are ingeniously simple and sturdy in design, giving them a **very long service life**.

The Venta Airwasher works on **the principle of cold evaporation, which is widely recognized as the best method**:

- > no lime deposits and no cartridges.
- > no ultrasonic spraying, no vaporization, and no overhumidifying. Indoor air is **automatically humidified to the correct percentage**.

The **brilliantly simple technology** makes it possible to add Venta fragrances without impairing the cleaning or humidifying function of the appliance.

IT'S SIMPLE

The basic idea behind the Venta Airwasher is brilliant in its simplicity: water is the filter. Air is drawn in and washed by the water.

The 2-in-1 system of the Airwasher makes sure that your air is perfectly purified and humidified at the same time. While the Airwasher constantly humidifies the air to a perfect level, even the finest particles are trapped in the water. The air is automatically humidified to the perfect percentage by cold evaporation, acknowledged as the best method of humidification.

VENTA AIRWASHER TECHNOLOGY WARRANTS: SIMPLEST OPERATION, CLEANING, HANDLING.

HOW IS THE VENTA AIRWASHER MAINTAINED? IT'S SIMPLE.

DAILY

Fill with fresh tap water.

EVERY TWO WEEKS

Rinse and recharge with Venta Water Treatment Additive. It helps prevent calcium and lime build-up.

TWICE YEARLY

Clean with ease. Use the Venta Cleaner periodically to thoroughly clean the Venta Airwasher.

ANYTIME

Popular fragrances are available. Use of these fragrances is optional.

LOW MAINTENANCE

With one click, the fan and motor can be removed for easy cleaning of the upper housing.

HIGH-QUALITY CONSTRUCTION

Double-walled construction for durability and strength.

LOW OPERATION COSTS

No filter pads needed. Water is the filter.

WATER TREATMENT ADDITIVE AND CLEANER RECOMMENDED.
